

# New Mentoring Grants Announced!

Based on the accomplishments of Mentoring For Success over the past few years, Student Support Services has received two new federal mentoring grants from the Department of Justice/Office of Juvenile Justice and Delinquency Prevention (OJJDP) to continue our middle school “Mentoring for Success” program with the aim to 1) prevent gang and juvenile justice system involvement, and 2) to mentor students in the foster care system K-12. Research tells us that mentoring outcomes are most resilient when a mentor-mentee match have been together for 18 months and longer, so a **new goal for Mentoring for Success is for all of our matches to remain together for at least 18 months** (many already do). We are enhancing training, support, and resources to mentors to help reach this goal. The program would not exist without the dedication of the Program’s Site Coordinators and mentors. So **thank you** for making mentoring a reality in our schools.
