

San Francisco Immunization Coalition

MISSION Tdap CLINICS December 6th-16th

The San Francisco Immunization Coalition is partnering with the San Francisco Department of Public Health, San Francisco State University, Mission Head Start, SF Unified School District, Mission Neighborhood Health Center, and Good Samaritan Family Resource Center to hold Tdap (adult/adolescent whooping cough booster vaccine) clinics in San Francisco's Mission District.

In California, the burden of disease has fallen on Latinos in cases as well as deaths from pertussis. We want to make sure our community is protected, especially children under the age of one for whom pertussis complications are the most serious.

The clinics are **FREE and open to the public** but targeted to family members and caregivers who will be in contact with a young child. **See schedule below.**
