

Welcome

August Institute Attendance and Early Release Policies

Program Definition

- ExCEL program sites operate 21st Century grant funded, comprehensive after school programs daily.
- Programs commence immediately upon conclusion of the regular school day, operate a minimum of 15 hours per week, and remain open until at least until 6:00 PM on every regular school day.

Student Attendance Expectations

Each high school ExCEL ASP program will operate on-site, **after-school Monday through Friday**, to match student, parent, school staff and community needs in support of student achievement.

The program must operate a minimum of **15 hours per week** in order to ensure positive alternatives will be available during the peak hours for juvenile crime and gang violence.

This time-frame also permits flexible access for the many SF youth who have other obligations such as part-time jobs to help support family needs.

Sign In/Out Procedure

- High School participants must Sign in and out daily in order to participate in any after school activities such as:
 - Academic Assistance
 - College Preparation
 - Enrichment
 - Cyber High

Site Discretion

Each ExCEL After School Program site has the discretion to modify the priority attendance section and/or student dismissal protocols of this policy to tailor the policy to the specific needs of their community, with the written approval from the ExCEL office.
