School District Nursing Consultation

Health consultant to resolve barriers to academic success
--

Historical Background

School District Nurses were introduced into SFUSD in the fall of 1990 to improve access to healthcare expertise at school sites.

Goal of the School District Nurse Consultation

The goal is to provide all school sites with access to qualified health consultants to resolve health-related and other barriers to academic success. School District Nurses are uniquely qualified to assess for health needs and verify need for nursing services in an Individualized Healthcare Plan (IHP), Individualized Education Plan (IEP) or Section 504 Plan.

Request for School District Nursing Consultation

A Request for School Nursing Consultation form can be found in the School Health Manual, Section D via www.healthiersf.org. A completed Request for can be emailed, faxed or delivered to the Nurse of the Day @ 415-242-2618 (fax) or call 415-242-2615 for email.
